International Thunderbird Club

CHAPTER AFFILIATION APPLICATION

We extend our wish that your Thunderbird club become affiliated as a working chapter with our organization, the International Thunderbird Club (ITC). While the basic building block of any organization is the individual member; the basic unit is the local club. This group, acting as an extended arm of the main, creates the environment and stimulates the hobby interest in an individual and personal fashion. In this way, our beloved vehicles show us the way to meeting and enjoying people with a common interest.

The signatures of at least six (6) valid members of the International Thunderbird Club are required in order to bring your club into the ITC as a full chapter. Pending status applies to those interested clubs which do not initially have that number. Here, three (3) are required. Pending status gives the power of international inclusion to the respective club in its pursuit to full chaptership. It is not a necessity that each club member individually join the ITC. However, we welcome each and every one, should he or she consider to do so.

Thunderbird Club Name _____

Website (if any) _____
